## **CHESS THE ROYAL GAME**

Chess requires and supports a lot of positive abilities, such as concentration, fairness, patience, foresighted and logical thinking, judgement ability, decisiveness, sovereign handling of win and loss.

### **CHESS IS SPORT**

Chess is a perfect sport to improve the learning ability of students. Only one hour chess a week helps you with studying! Foresighted thinking and planning is important at playing chess. But also imagination and combinatorics play a decisive role. The many possible moves leave space for a lot of own ideas. Chess is versatile, knows no borders and differences in age!
